Small Business Energy Solutions
Solar Worksheet

To confirm that your business qualifies for small business rebates, please complete the online business profile at **efficiencyns.ca/business-profile.**

Small Business customers are eligible for rebates up to 60% of pre-tax project cost. Nova Scotia Power customers may also be eligible for 24 month, 0% interest financing on their power bill. Conditions apply.

Eligible products are listed in the table below. **Participants must receive pre-approval before purchasing and installing equipment.** To apply for rebates, please enter all requested product details in the worksheet below and submit with a quote and product specification sheet for review. A pre-approval document with your total rebate amount will be issued to you via email.

Submit your completed worksheet along with supporting documents to:

Solar, Hot Water & Space Heating System(s)

Ask your contractor to provide an energy analysis. Please note: RETScreen is Efficiency Nova Scotia's preferred modeling software.

The following table lists the product requirements and rebates available for solar thermal products:

NOTE: Photovoltaic systems are not eligible for rebates.

Product	Product Requirements
• New solar domestic hot water (DHW) systems • New solar space heating systems	• Energy analysis must be submitted with application • Rebates are only available for projects that offset electricity • Must be CSA approved

Installation Address
Facility Name:
Facility Street Address (PO Boxes NOT accepted):

Intended Use

☐ Domestic water heating ☐ Space heating ☐ Both space and water heating ☐ Other: _____
